F. SCOPE OF WORK: PROGRAM SPECIFICATIONS

Through a cooperative agreement with the U.S. Centers for Disease Control and Prevention (CDC), the Guam Department of Public Health and Social Services is receiving federal funds to implement a Breast and Cervical Cancer Early Detection Program (GBCCEDP) for Guam's individuals over a new period of five years. GBCCEDP is in its first year of operation for the new 5-year grant period (June 30, 2017 to June 29, 2018).

The GBCCEDP does not cover treatment services to individuals diagnosed with breast and/or cervical cancer.

This project involves screening and re-screening of qualified individuals for breast and cervical cancer. It also includes referral, follow-up, tracking and recall of individuals with abnormal results to ensure that appropriate services are provided in a timely manner until the final diagnosis is made. Individuals who are diagnosed with breast or cervical cancer should be advised to return to the GBCCEDP for further evaluation and referral to the DPHSS Medical Social Services (MSS) office. The MSS social workers will provide appropriate and timely patient education related to treatment services, and provider education.

The goal of the GBCCEDP program is to reduce the breast and cervical cancer mortality rates on Guam, especially among elderly, poor, minority and underserved individuals.

The National Breast and Cervical Cancer Early Detection Program has been updated and expressly includes Breast Screening for Transgender Women. Transgender women (male-to-female), who have taken or are taking hormones and meet all program eligibility requirements, are eligible to receive breast and diagnostic services through the NBCCEDP. Therefore, federal funds may be used to screen transgender women. While CDC does not make any recommendation about routine screening among this population, grantees and providers should counsel all eligible women, including transgender women, about the benefits and harms of screening and discuss individual risk factors to determine if screening is medically indicated.

The Center of Excellence for Transgender Health and the World Professional Association for Transgender Health have developed consensus recommendations on preventative care services for the transgender population. Those recommendations include "for transwomen with past or current use, breast-screening mammography in patients over age 50 with additional risk factors (e.g. estrogen and progestin use > 5 years, positive family history, BMI > 35)." See *National Breast and Cervical Cancer Early Detection Program Manual DP17-701 Cancer Prevention and Control Programs for State, Territorial, and Tribal Organizations* (December 2017).

The Department is in need of a qualified medical facility(ies) or individual(s), to provide some or ALL of the breast and cervical cancer screening, re-screening, diagnostic services (to include gynecological and surgical consultation services), case management, quality assurance, patient and professional education required by the GBCCEDP, as well as adjunctive activities as shall be specified.

Services that are not available at the medical facility submitting the RFP may sub-contract the service(s) to an individual or to other medical facility(ies) offering that service(s). The subcontractors must meet the following:

1. The contractor must develop written contract agreement, to include payment of services, with all subcontractors who provide services to GBCCEDP participants.
2. All subcontractors must be held subject to the same requirements as the contractor.
3. A complete copy of any and all written agreements executed between contractor and subcontractor must be provided to the GBCCEDP

Funding shall be available to any qualified facility(ies) or individual(s) that is contracted to provide all or some of the services required for the GBCCEDP clients.

The health care facility that will conduct mammography testing must be accredited Mammography Quality Service Accreditation (MQSA) certified, and use the American College of Radiology (ACR) Breast Imaging Reporting and Data System (bi-RADS), which should be updated and revised in accordance with the specified guidelines.

All mammography tests must be interpreted by a licensed radiologist.

- a. All laboratory services must be performed by a CLIA - Certified Laboratory, in accordance with 42 CFR Part 493, Laboratory Requirements Clinical Laboratory Improvement Act (CLIA), Public Health Service Act, Subpart 2, Section 353.

Pap tests (liquid-based) must be interpreted by a certified pathologist using the Bethesda Reporting System which shall be updated and revised in accordance with the specified guidelines.

2017 NBCCEDP Allowable Procedures and Relevant CPT® Codes

Listed below are allowable procedures and the corresponding suggested CPT codes for use in the National Breast and Cervical Cancer Early Detection Program (NBCCEDP) under these general conditions:

- New codes are indicated in bold.
- Reimbursement for treatment services is not allowed.
- The suggested CPT codes are *not* all-inclusive and grantees may utilize other, including temporary, CPT codes for an approved procedure.
- Questions regarding the appropriateness to utilize a procedure not listed in a grantee's application, should be referred to the grantee's local medical advisory board to determine if the procedure is warranted given the overall intent of the CDC funding and amount of resources available.
- The use of procedures not listed in the application should be an exception (used in less than 5% of the screening population) and not the rule.
- Grantees are required to be responsible stewards of the NBCCEDP funds and use screening and diagnostic dollars in an efficient and appropriate manner.

1	All consultations should be billed through the standard "new patient" office visit CPT codes: 99201-99205. Consultations billed as 99204 or 99205 must meet the criteria for these codes. These codes (99204-99205) are typically not appropriate for NBCCEDP screening visits.
2	The type and duration of office visits should be appropriate to the level of care necessary for accomplishing screening and diagnostic follow-up within the NBCCEDP. Reimbursement rates should not exceed those published by Medicare. While the use of 993XX-series codes may be necessary in some programs, the 993XX Preventive Medicine Evaluation visits themselves are not appropriate for the NBCCEDP. 9938X codes shall be reimbursed at or below the 99203 rate, and 9939X codes shall be reimbursed at or below the 99213 rate.
3	Medicare's methodology for the payment of anesthesia services are outlined in the Medicare Claims Processing Manual, Chapter 12, pages 99-107, available here: http://www.cms.hhs.gov/manuals/downloads/clm104c12.pdf The carrier-specific Medicare anesthesia conversion rates are available here: http://www.cms.hhs.gov/center/anesth.asp
4	These procedures may be reimbursed at their own Medicare rates.

5	<p>HPV DNA testing is a reimbursable procedure if used for screening in conjunction with Pap testing or for follow-up of an abnormal Pap result or surveillance as per ASCCP guidelines. It is not reimbursable as a primary screening test for individuals of all ages or as an adjunctive screening test to the Pap for individuals under 30 years of age. Providers should specify the high-risk HPV DNA panel only. Reimbursement of screening for low-risk HPV types is not permitted.</p> <p>CDC allows for reimbursement of Cervista HPV HR at the same rate as the Digene Hybrid-Capture 2 HPV DNA Assay.</p> <p>CDC funds may be used for reimbursement of HPV genotyping.</p>
6	A LEEP or conization of the cervix, as a diagnostic procedure, may be reimbursed based on ASCCP recommendations. Grantees are strongly encouraged to develop policies to closely monitor these procedures and should pre-authorize this service for reimbursement by having it medical advisory board or designated clinical representative(s) review these cases in advance, and on an individual basis.
7	This charge should be used with caution to ensure that programs do not reimburse for supplies, the cost of which, has already been accounted for in another clinical charge.
8	Breast MRI can be reimbursed by the NBCCEDP in conjunction with a mammogram when a client has a BRCA mutation, a first-degree relative who is a BRCA carrier, or a lifetime risk of 20-25% or greater as defined by risk assessment models such as BRCAPRO that are largely dependent on family history. Breast MRI can also be used to better assess areas of concern on a mammogram or for evaluation of a client with a past history of breast cancer after completing treatment. Breast MRI should never be done alone as a breast cancer screening tool. Breast MRI cannot be reimbursed for by the NBCCEDP to assess the extent of disease in a individuals who is already diagnosed with breast cancer.
9	Codes 19081-19086 are to be used for breast biopsies that include image guidance, placement of localization device, and imaging of specimen. These codes should not be used in conjunction with 19281-19288.
10	Codes 19281-19288 are for image guidance placement of localization device without image-guided biopsy. These codes should not be used in conjunction with 19081-19086.
11	List separately in addition to code for primary procedure G0202.
12	List separately in addition to G0204 or G0206
13	These procedures have not been approved by coverage by Medicare.
14	Due to Medicare claims processing issues, CMS will not be able to process the new CPT codes. Therefore no reimbursement fees have been assigned to these codes. Grantees should use only G0202, G0204 and G0206 until this has been resolved. It is expected that these codes will be operationalized by 2018.
15	Appropriate for use of breast risk assessment tools during an office visit. The modifier -25 should be added to the appropriate office visit CPT to indicate a separate service done on same day.

2018 NBCCEDP Allowable Procedures and Relevant CPT® Codes

Listed below are allowable procedures and the corresponding suggested Current Procedural Terminology (CPT) codes for use in the National Breast and Cervical Cancer Early Detection Program (NBCCEDP) under these general conditions—

- Grantees are required to be responsible stewards of the NBCCEDP funds and use screening and diagnostic dollars in an efficient and appropriate manner.
- When questions arise regarding the appropriateness to use a specific CPT code, the grantee should discuss with their local medical consultants and CDC program consultant to determine appropriateness.
- The CPT codes listed are not all-inclusive and grantees may add other, including temporary, CPT codes for an approved procedure.

1	All consultations should be billed through the standard "new patient" office visit CPT codes 99201–99205. Consultations billed as 99204 or 99205 must meet the criteria for these codes. These codes (99204–99205) are typically <u>not</u> appropriate for NBCCEDP screening visits.
2	The type and duration of office visits should be appropriate to the level of care needed to accomplish screening and diagnostic follow-up within the NBCCEDP. Reimbursement rates should not exceed those published by Medicare. While some programs may need to use 993XX-series codes, 993XX Preventive Medicine Evaluation visits are not appropriate for the NBCCEDP. 9938X codes shall be reimbursed at or below the 99203 rate, and 9939X codes shall be reimbursed at or below the 99213 rate.
3	List separately in addition to code for primary procedure 77067.
4	List separately in addition to 77065 or 77066.
5	Breast MRI can be reimbursed by the NBCCEDP in conjunction with a mammogram when a client has a BRCA gene mutation, a first-degree relative who is a BRCA carrier, or a lifetime risk of 20% or greater as defined by risk assessment models such as BRCAPRO that depend largely on family history. Breast MRI also can be used to assess areas of concern on a mammogram, or to evaluate a client with a history of breast cancer after completing treatment. Breast MRI should never be done alone as a breast cancer screening tool. Breast MRI cannot be reimbursed for by the NBCCEDP to assess the extent of disease in women who have just been diagnosed with breast cancer.
6	Codes 19081–19086 are to be used for breast biopsies that include image guidance, placement of a localization device, and imaging of specimen. They should not be used in conjunction with 19281–19288.

7	Codes 19281–19288 are for image guidance placement of a localization device without image-guided biopsy. These codes should not be used in conjunction with 19081–19086.
8	HPV DNA testing is not a reimbursable procedure if used as an adjunctive screening test to the Pap for women under 30 years of age.
9	These procedures have not been approved for coverage by Medicare.

CONTRACT TERMS AND CONDITIONS DPHSS- GBCCEDP

The contract to be entered into between DPHSS and the awarded Offeror herein will include the Notice of Grant Award Terms and Conditions Grant Document Number: 1 NU58DP006269-01-00 attached hereto and incorporated herein as if fully rewritten, and the following terms and conditions in some form if required by law.

A. GUAM TAXES

(1) **Guam Income Taxes.** If any work is to be performed on Guam, then the offeror may be subject to Guam Income Taxes as well as all other applicable taxes on Guam transactions. Specific information on Guam taxes may be obtained from the Director of the Department of Revenue and Taxation, Government of Guam, PO Box 23607, GMF Guam 96921.

(2) **Non-Resident Tax Withholding.** A nonresident person without a valid Guam business license residing outside of Guam, shall be subject to a withholding assessment, the equivalent of the Guam BPT, which shall be equal to four percent (4%) of the total value of a contract awarded by all government of Guam contracts for professional services as cost of doing business with the government of Guam.

B. EQUAL EMPLOYMENT OPPORTUNITY

Contractor may not discriminate against its employees or applicants for employment because of race, creed, color or national origin. The contractor shall take affirmative action to ensure that applicants are employed, and that employees are treated, equally without regard to their race, creed, color or national origin.

D. COMPLIANCE WITH AMERICAN WITH DISABILITIES ACT (ADA)

Contractor must meet all requirements of the Americans with Disabilities Act.

E. INDEPENDENT CONTRACTOR STATUS

Contractor understands that its relationship with the government is as an independent consultant or contractor, and not as an employee of the government. No employee benefits such as insurance coverage, participation in the government retirement system, or accumulation of vacation or sick leave shall accrue to the offeror or its individual employees, if any. No type of tax will be withheld from payments made to the awarded offeror.

F. INTEGRATION

The contract shall supersede any and all other prior agreements, either oral or in writing, between the parties with respect to the retainer of the chosen offeror, and contains all the

covenants and agreements between such parties with respect to the retainer in any manner whatsoever. Each party to the contract shall acknowledge that no agreements otherwise have been made by any party, or anyone acting on behalf of any party, which are not embodied within the contract and that no other agreement, statement, or promise not contained in the contract will be valid or binding.

G. RESPONSIBILITY FOR ACCURACY OF WORK

The contractor shall be responsible for the professional and technical accuracy of all work and materials furnished under the contract. The contractor shall, without additional cost to the government, correct or revise all errors of deficiencies in its work. The awarded offeror shall agree to devote his or its best efforts to the duties and responsibilities under the contract in accordance with the laws, rules, regulations, and policies of the government of Guam. The government's review, approval, acceptance of, and payment of fees for services required under the contract, shall not be construed to operate as a waiver of any rights under the contract or of any cause of action arising out of contractor's failure to perform the services required; and the awarded offeror shall be and remain liable to the government of Guam for all costs of any kind which may be incurred as a result of contractor's negligent performance of any of the services required to be performed under the contract.

H. SUBCONTRACTING OF AGREEMENT

Because of the nature of the work, the contractor may not subcontract any part of the services required under the contract without the prior written consent of the government.

I. GENERAL COMPLIANCE WITH LAWS

Contractor shall comply with all federal and local laws and regulations applicable to the services provided. A complete copy of the 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and 45 CFR Part 75, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards is available at the federal granting agency's website: <https://www.cdc.gov/grants/federalregulationspolicies/index.html>, and is incorporated herein as if fully re-written.

J. OWNERSHIP OF DOCUMENTS

All briefs, memoranda and other incidental work or materials prepared by the contractor shall be and remain the property of the government, including all publication rights and copyright interests, and may be used by the government without any additional costs to the government.

K. CHANGES

The government may at any time, by written order, make any change in the services to be performed hereunder, provided the change is within the general scope of work agreed to between the parties and as set out in this Request for Proposals.

(Ref. 2GAR Div. 4 § 6101 (3)(a))

(1) **Change Order.** By a written order, at any time, and without notice to surety, the Procurement Officer may, subject to all appropriate adjustments, make changes within the general scope of this contract in any one or more of the following:

(A) Drawing, designs, or specifications, if the supplies to be furnished are to be specially manufactured for the territory in accordance therewith;

(B) Method of shipment or packing; or

(C) Place of delivery.

(2) **Adjustments of Price or Time for Performance.** If any such change order increases or decreases the contractor's cost of, or the time required for performance of any part of the work under the contract, whether or not changed by the order, any adjustment shall be made and the contract modified in writing accordingly. Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of the contract. Failure of the parties to agree to an adjustment shall not excuse the contractor from proceeding with the contract as changed, provided that the territory promptly and duly make such provisional adjustments in payment or time for performance as may be reasonable. By proceeding with the work, the contractor shall not be deemed to have prejudiced any claim for additional compensation, or an extension of time for completion.

(3) **Time Period for Claim.** Within 30 days after receipt of a written change order under Paragraph (1) (Change Order) of this clause, unless such period is extended by the Procurement Officer in writing, the contractor shall file notice of intent to assert a claim for an adjustment. Later notification shall not bar the contractor's claim unless the territory is prejudiced by the delay in notification.

(4) **Claims Barred After Final Payment.** No claim by the contractor for an adjustment hereunder shall be allowed if notice is not given prior to final payment under this contract.

(5) **Other Claims Not Barred.** In the absence of such a change order, nothing in this clause shall be deemed to restrict the contractor's right to pursue a claim arising under the contract if pursued in accordance with the clause entitled, "Claims Based on a Procurement Officer's Actions or Omissions, Notice of Claim Clause", or for breach of contract."

(6) **Stop Work Order Clause.** (Ref. 2GAR Div. 4 § 6101(4)(c))

(1) **Order to Stop Work.** The Procurement Officer may, by written order to the contractor, at any time, and without notice to any time, and without notice to any surety, require the contractor to stop all or any part of the work called for by this contract. This order shall be for a specified period not exceeding 90 days after the order is delivered to the contractor, unless the parties agree to any further period. Any such order shall be identified specifically as a stop work order issued pursuant to this clause. Upon receipt of such an order, the contractor shall forthwith comply with its terms and take all reasonable steps to minimize the occurrence of costs allocable to the work covered by the order during

the period of work stoppage. Before the stop work expires, or within any further period to which the parties shall have agreed, the government shall either:

- i. Cancel the stop work order; or
 - ii. Terminate the work covered by such order as provided in the “Termination for Default Clause” or the “Termination for Convenience Clause” of this contract.
- (2) **Cancellation or Expiration of the Order.** If a stop work order issued under this clause is cancelled at any time during the period specified in the order, or if the period of the order or any extension thereof expires, the contractor shall have the right to resume work. An appropriate adjustment shall be made in the delivery schedule or contract price shall be modified in writing accordingly, if:
- (i) the stop work order results in an increase in the time required for, or in the contractor’s cost properly allocable to, the performance of any part of this contract; and
 - (ii) the contractor asserts a claim for such an adjustment within 30 days after the end of the period of work stoppage; provided that, if the Procurement Officer decides that the facts justify such action, any such claim asserted may be received and acted upon at any time prior to final payment under this contract.
- (3) **Termination of Stopped Work.** If a stop work order is not cancelled and the work covered by such order is terminated for default or convenience, the reasonable costs resulting from the stop work order shall be allowed by adjustment or otherwise.
- (4) **Adjustment of Price.** Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of the contract.”

(7) **Price Adjustment Clause.** (Ref. 2GAR Div. 4 § 6101 (6))

- (a) **Price Adjustment Methods.** Any adjustment in contract price pursuant to a clause in this contract shall be made in one or more of the following ways:
 - (i) by agreement on a fixed price adjustment before commencement of the pertinent performance or as soon thereafter as practicable;
 - (ii) by unit prices specified in the contract or subsequently agreed upon;
 - (iii) by the costs attributable to the event or situation covered by the clause, plus appropriate profit or fee, all as specified in the contract or subsequently agreed upon;

(iv) in such other manner as the parties may mutually agree; or

(v) in the absence of agreement between the parties, by a unilateral determination by the Procurement Officer of the costs attributable to the event or situation covered by the clause, plus appropriate profit or fee, all as computed by the Procurement Officer in accordance with generally accepted accounting principles and applicable sections of the regulations promulgated under Chapter 7 (Cost Principles), subject to the provisions of Chapter 9 (Legal and Contractual Remedies) of the Guam Procurement Regulations.

(b) **Submission of the Cost or Pricing Data.** The contractor shall provide cost or pricing data for any price adjustments subject to the provisions of §3118 (Costs or Pricing Data) of the Guam Procurement Regulations.

If such change causes an increase or decrease in the costs of doing the work, an equitable adjustment shall be made and the contract shall be modified in writing accordingly. However, any modification of the contract will be effective only if it is in writing signed by the parties and approved by the Governor of Guam.

L. SEVERABLE PROVISIONS

If any provision of the contract shall be deemed by a court of competent jurisdiction to be invalid, then such provision shall be deemed stricken from the contract and the contract shall be enforced according to its valid and subsisting terms and provisions.

M. EFFECTIVE DATE OF CONTRACT

The contract shall take effect upon the signature of all the required parties and approval by the Governor of Guam.

N. FEDERAL FUNDS – COST PRINCIPLES APPLICABLE TO THE PROCUREMENT

This procurement is funded with federal funds and is governed by the cost principles of the Office of Management and Budget (OMB). Allowable costs are those costs identified in the relevant OMB circulars and in the grant program's authorizing legislation. All costs in this procurement must be reasonable, allocable, and necessary to the project, and they must also comply with Federal and the Government of Guam funding statutes and regulations. See Cost Principles for Educational Institutions, Title 2 CFR Part 220; Cost Principles for State, Local and Indian Tribal Governments, Title 2 CFR Part 225; Cost Principles for Non-Profit Organizations, Title 2 CFR Part 230; the Federal Acquisition Regulations as well 2 GAR Division 4 Chapter 7 Cost Principles.

Included in the procurement are **MEDICARE PART B REIMBURSEMENT RATES (Appendix I)**.

In the event of termination in whole or in part the Procurement Officer may procure similar supplies or services in a manner and upon terms deemed appropriate by the Procurement Officer. The contractor shall continue performance of the contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

b. Contractor's Duties

Notwithstanding termination of the contract and subject to any directions from the Procurement Officer, the contractor shall take timely, reasonable, and necessary action to protect and preserve property in the possession of the contractor in which the territory has an interest.

c. Compensation

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

45 CFR Part 75 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non-Federal entity under the Federal award must contain provisions covering the following, as applicable.

(A) Contracts for more than the simplified acquisition threshold currently set at \$150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

(B) All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of “federally assisted construction contract” in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 CFR part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of “funding agreement” under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of \$150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

(I) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding \$100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with

obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

(J) See §200.322 Procurement of recovered materials.

FUNDING RESTRICTIONS AND LIMITATIONS

Notice of Funding Opportunity (NOFO) Restrictions: N/A

Indirect Costs:

Indirect costs are approved based on the Indirect Cost Rate Agreement dated January 4, 2017, which calculates indirect costs as follows, a Provisional rate is approved at a rate of 26.% of the base, which includes, Total direct salaries and wages excluding fringe benefits. The effective dates of this indirect cost rate are from 10/01/2017 to Until Amended.

Matching Funds Requirement:

Matching is calculated on the basis of the federal award amount and is comprised of recipient contributions proposed to support anticipated costs of the project during a specific budget period (confirmation of the existence of funding is supplied by the recipient via their Federal Financial Report). The recipient must be able to account separately for stewardship of the federal funding and for any required matching; it is subject to monitoring, oversight, and audit. The recipient may not use matching expenditures to count toward any Maintaining State Funding requirement.

When a recipient requests a carryover of unobligated funds from prior year(s), matching funds equal to the new requirement must be on record in the CDC grant file, or the recipient must provide evidence with the carryover request.

NBCCEDP: Recipient financial participation is required for this program in accordance with the authorizing legislation. Section 1502(a) and (b)(1), (2), and (3) of the Public Health Services (PHS) Act, as amended, requires matching funds from non-Federal sources in an amount not less than one dollar for every three dollars of Federal funds awarded under this program. However, Title 48 of the U.S. Code 1469a (d) requires DHHS to waive matching fund requirements up to \$200,000 for Guam, U.S. Virgin Islands, American Samoa and the Commonwealth of the Northern Mariana Islands.

Matching funds may be cash, in-kind or donated services or equipment. Contributions may be made directly or through donations from public or private entities. Public Law 93-638 authorizes tribal organizations contracting under the authority of Title I to use funds received under the Indian Self-Determination Act as matching funds.

Applicants may also designate as State/Tribal/Territorial/Pacific Island Jurisdiction matching funds any non-Federal amounts spent pursuant to Title XIX of the Social Security Act for the screening and case management of women for breast and cervical cancers.

Matching funds may not include: (1) payment for treatment services or the donation of treatment services; (2) services assisted or subsidized by the Federal government; or (3) the indirect or overhead costs of an organization. All costs used to satisfy the matching requirements must be documented by the applicant and will be subject to audit.

To maintain the \$3:\$1 Non-Federal Match required the level of Non-Federal financial participation is 0. This amount is the required ratio of cost sharing. The amount reflected on this Notice of Award, \$0, is the amount reflected in your submitted budget and equals the required ratio of cost sharing.

NCCCP: Cost sharing funds are encouraged in an amount not less than ten percent of Federal funds awarded under this program. Cost sharing is encouraged if it helps to leverage federal and state

resources, is responsive to stated CDC recipient activities, supports the National Comprehensive Cancer Control Program priorities, and does not compromise the integrity or the ability of the comprehensive cancer control program to accomplish proposed activities. Matching funds are not required under this cooperative agreement, but are encouraged.

The encouraged level of Non-Federal financial participation is \$0. This amount represents the encouraged ratio of cost sharing. The amount reflected on this Notice of Award, \$0 is the amount reflected in your submitted budget and exceeds the encouraged ratio of cost sharing.

NPCR: Per PHS Act (42 USC 280e-280e-4), matching funds are required for Program 3, NPCR applicants in an amount not less than 25 percent of such costs or one dollar for every three dollars of Federal funds awarded under this program; [Title 42, Chapter 6A, Subchapter II, Part M, § 280e(b)(1)]. Matching funds may be cash, in-kind, or donated services or equipment. Contributions may be made directly or through donations from public or private entities. However, Title 48 of the U.S. Code 1469a (d) requires DHHS to waive matching fund requirements for Guam, U.S. Virgin Islands, American Samoa and the Commonwealth of the Northern Mariana Islands up to \$200,000. Public Law 93-638 authorizes tribal organizations contracting under the authority of Title 1 to use funds received under the Indian Self-Determination Act as matching funds. Non-federal financial contributions in excess of the Maintenance of Effort may be used for matching.

Matching funds may not include: (1) payment for treatment services or the donations of treatment services (2) services assisted or subsidized by the Federal government; or (3) the indirect or overhead costs of an organization. All costs used to satisfy the matching requirement must be documented by the applicant and will be subject to audit. Documentation of appropriate matching is to be provided in the detailed budget and narrative justification.

To maintain the \$3:\$1 Non-Federal Match required the level of Non-Federal financial participation is \$0. This amount is the required ratio of cost sharing. The amount reflected on this Notice of Award, \$0, is the amount reflected in your submitted budget and exceeds the required ratio of cost sharing.

Maintenance of Effort (MOE) Requirement: MOE represents an applicant/recipient historical level of contributions related to Federal programmatic activities which have been made prior to the receipt of Federal funds "expenditures (money spent)." MOE is used as an indicator of non-federal support for public health security before the infusion of Federal funds. These expenditures are calculated by the recipient without reference to any Federal funding that also may have contributed to such programmatic activities in the past. Awardees must stipulate the total dollar amount in their grant applications. Recipients must be able to account for MOE separately from accounting for Federal funds and separately from accounting for any matching funds requirement; this accounting is subject to ongoing monitoring, oversight, and audit. MOE may not include any matching funds requirement.

NBCCEDP: Maintenance of Effort is required for this program in accordance with the authorizing legislation PL 101-354. The average amount of non-Federal contributions toward breast and cervical cancer programs and activities for the two-year period preceding the first Federal fiscal year of funding for NBCCEDP is referred to as Maintenance of Effort (MOE). Only those non-Federal contributions in excess of the MOE amount may be considered matching funds. Supplanting, or replacing, existing program efforts currently paid with Federal or non-Federal sources is not allowable.

NCCCP: Maintenance of effort is not required for this program.

NPCR: Maintenance of Effort is required for this program. Recipients must agree to make available (directly or through donations from public or private entities) non-Federal contributions equal to the amount expended during the fiscal year preceding the first year of the original NPCR cooperative agreement award for the collection of data on cancer, as noted in Public Health Service Act (42 USC 280e-280e-4).

In determining the amount of non-Federal contributions for cost-sharing or matching, the recipient may include only those contributions that are in excess of the amount of contributions made by the State for collection of data on cancer for the fiscal year preceding the first year of the original NPCR cooperative agreement award. CDC may decrease the amount of non-Federal contributions required if the State can show that the amount will cause them financial hardship [Title 42, Chapter 6A, Subchapter II, Part M, § 280e(b)(2)(B)].

CDC is required to report any termination of a federal award prior to the end of the period of performance due to material failure to comply with the terms and conditions of this award in the OMB-designated integrity and performance system accessible through SAM (currently FAPIIS). (45 CFR 75.372(b)) CDC must also notify the recipient if the federal award is terminated for failure to comply with the federal statutes, regulations, or terms and conditions of the federal award. (45 CFR 75.373(b))

If the total value of your currently active grants, cooperative agreements, and procurement contracts from all Federal awarding agencies exceeds \$10,000,000 for any period of time during the period of performance of this Federal award, then you as the recipient during that period of time must maintain the currency of information reported to the System for Award Management (SAM) that is made available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIIS)) about civil, criminal, or administrative proceedings described in section 1 of this award term and condition. This is a statutory requirement under section 872 of Public Law 110-417, as amended (41 U.S.C. 2313). As required by section 3010 of Public Law 111-212, all information posted in the designated integrity and performance system on or after April 15, 2011, except past performance reviews required for Federal procurement contracts, will be publicly available.

 - (iii) The requirement in this award term and condition to disclose information about the proceeding does not conflict with applicable laws and regulations.

2. Reporting Procedures

Enter in the SAM Entity Management area the information that SAM requires about each proceeding described in section 1 of this award term and condition. You do not need to submit the information a

second time under assistance awards that you received if you already provided the information through SAM because you were required to do so under Federal procurement contracts that you were awarded.

3. Reporting Frequency

During any period of time when you are subject to this requirement in section 1 of this award term and condition, you must report proceedings information through SAM for the most recent five year period, either to report new information about any proceeding(s) that you have not reported previously or affirm that there is no new information to report. The recipient's established travel policies and procedures must also meet the requirements of 45 CFR Part 75.474.

Inventions: Acceptance of grant funds obligates rs to comply with the standard patent rights clause in 37 CFR Part 401.14.

Publications: Publications, journal articles, etc. produced under a CDC grant support project must bear an acknowledgment and disclaimer, as appropriate, for example:

This publication (journal article, etc.) was supported by the Grant or Cooperative Agreement Number, DP006269, funded by the Centers for Disease Control and Prevention. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the Centers for Disease Control and Prevention or the Department of Health and Human Services.

Acknowledgment Of Federal Support: When issuing statements, press releases, requests for proposals, bid solicitations and other documents describing projects or programs funded in whole or in part with Federal money, all awardees receiving Federal funds, including and not limited to State and local governments and recipients of Federal research grants, shall clearly state:

- dollar amount of Federal funds for the project or program, and
- percentage and dollar amount of the total costs of the project or program that will be financed by non-governmental sources.

Copyright Interests Provision: This provision is intended to ensure that the public has access to the results and accomplishments of public health activities funded by CDC. Pursuant to applicable grant regulations and CDC's Public Access Policy, Recipient agrees to submit into the National Institutes of Health (NIH) Manuscript Submission (NIHMS) system an electronic version of the final, peer-reviewed manuscript of any such work developed under this award upon acceptance for publication, to be made publicly available no later than 12 months after the official date of publication. Also at the time of submission, Recipient and/or the Recipient's submitting author must specify the date the final manuscript will be publicly accessible through PubMed Central (PMC). Recipient and/or Recipient's submitting author must also post the manuscript through PMC within twelve (12) months of the publisher's official date of final publication; however the author is strongly encouraged to make the subject manuscript available as soon as possible. The recipient must obtain prior approval from the CDC for any exception to this provision.

The author's final, peer-reviewed manuscript is defined as the final version accepted for journal publication, and includes all modifications from the publishing peer review process, and all graphics and supplemental material associated with the article. Recipient and its submitting authors working under this

award are responsible for ensuring that any publishing or copyright agreements concerning submitted articles reserve adequate right to fully comply with this provision and the license reserved by CDC. The manuscript will be hosted in both PMC and the CDC Stacks institutional repository system. In progress reports for this award, recipient must identify publications subject to the CDC Public Access Policy by using the applicable NIHMS identification number for up to three (3) months after the publication date and the PubMed Central identification number (PMCID) thereafter.

Disclaimer for Conference/Meeting/Seminar Materials: Disclaimers for conferences/meetings, etc. and/or publications: If a conference/meeting/seminar is funded by a grant, cooperative agreement, sub-grant and/or a contract the recipient must include the following statement on conference materials, including promotional materials, agenda, and internet sites:

Funding for this conference was made possible (in part) by the Centers for Disease Control and Prevention. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

Logo Use for Conference and Other Materials: Neither the Department of Health and Human Services (HHS) nor the CDC logo may be displayed if such display would cause confusion as to the funding source or give false appearance of Government endorsement. Use of the HHS name or logo is governed by U.S.C. Part 1320b-10, which prohibits misuse of the HHS name and emblem in written communication. A non-federal entity is unauthorized to use the HHS name or logo governed by U.S.C. Part 1320b-10. The appropriate use of the HHS logo is subject to review and approval of the HHS Office of the Assistant Secretary for Public Affairs (OASPA). Moreover, the HHS Office of the Inspector General has authority to impose civil monetary penalties for violations (42 CFR Part 1003).

Accordingly, neither the HHS nor the CDC logo can be used by the recipient without the express, written consent of CDC. The Project Officer or Grants Management Officer/Specialist detailed in the CDC Staff Contact section can assist with facilitating such a request. It is the responsibility of the recipient to request consent for use of the logo in sufficient detail to ensure a complete depiction and disclosure of all uses of the Government logos. In all cases for utilization of Government logos, the recipient must ensure written consent is received. Further, the HHS and CDC logo cannot be used by the recipient without a license agreement setting forth the terms and conditions of use.

Equipment and Products: To the greatest extent practical, all equipment and products purchased with CDC funds should be American-made. CDC defines equipment as tangible non-expendable personal property (including exempt property) charged directly to an award having a useful life of more than one year AND an acquisition cost of \$5,000 or more per unit. However, consistent with recipient policy, a lower threshold may be established. Please provide the information to the Grants Management Officer to establish a lower equipment threshold to reflect your organization's policy.

The recipient may use its own property management standards and procedures, provided it observes provisions in applicable grant regulations found at 45 CFR Part 75.

Federal Information Security Management Act (FISMA): All information systems, electronic or hard copy, that contain federal data must be protected from unauthorized access. This standard also applies to information associated with CDC grants. Congress and the OMB have instituted laws, policies and directives that govern the creation and implementation of federal information security practices that pertain specifically to grants and contracts. The current regulations are pursuant to the Federal Information Security Management Act (FISMA), Title III of the E-Government Act of 2002, PL 107-347.

FISMA applies to CDC recipients only when recipients collect, store, process, transmit or use information on behalf of HHS or any of its component organizations. In all other cases, FISMA is not applicable to recipients of grants, including cooperative agreements. Under FISMA, the recipient retains the original data and intellectual property, and is responsible for the security of these data, subject to all applicable

laws protecting security, privacy, and research. If/When information collected by a recipient is provided to HHS, responsibility for the protection of the HHS copy of the information is transferred to HHS and it becomes the agency's responsibility to protect that information and any derivative copies as required by FISMA. For the full text of the requirements under Federal Information Security Management Act (FISMA), Title III of the E-Government Act of 2002 Pub. L. No. 107-347, please review the following website: <https://www.gpo.gov/fdsys/pkg/PLAW-107publ347/pdf/PLAW-107publ347.pdf>

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors, applies to all contracts subject to the Service Contract Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is the victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$4.41 per hour or \$176.40 per week or \$764.40 per month

HEALTH & WELFARE EO 13706: \$4.13 per hour, or \$165.20 per week, or \$715.87 per month*

*This rate is to be used only when compensating employees for performance on an SCA-covered contract also covered by EO 13706, Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; and 4 weeks after 3 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate,

then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

- (1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;
- (2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;
- (3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or
- (4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**** HAZARDOUS PAY DIFFERENTIAL ****

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder.

All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS ****

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

**** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE, Standard Form 1444 (SF-1444) ****

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report

of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the U.S. Department of Labor, Wage and Hour Division, for review (See 29 CFR 4.6(b) (2) (ii)).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.

6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b) (2) (iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c) (1)).
